

Life's A Beach

Brief

- Entertain 150 guests on the unique beach space at The Grove
- Create a fun, interactive session
- Encourage guests to work with people from other departments

Solution

The guests split into 16 teams and spent half their time trying to complete a cryptic treasure hunt around the hotel grounds and the other half competing head-to-head on our beach themed activities.

The treasure hunt compiled of a cryptic trail, mental brainteasers, scavenger hunt and photocall, where guests must use a Polaroid camera to capture their team in funny situations.

Our beach themed activities consisted of:

Build a Life Guard Tower

The team must build a tower that will support all of their team and raise them off the sand.

Driftwood Challenge

Each team is given a pile of driftwood that can be assembled to form a logical grid. There is only one way to solve this problem.

Deckchair Madness - this will be held on The Beach

It's hard enough erecting a normal deckchair! Our deckchairs consisted of numerous odd shaped pieces that only go together in one way and to make things worse, half the team is blindfolded!!
